LIFE CONTRACTS

Knowing is always the first step towards accomplishment. What we know and what is actually is are poles apart. Know how life functions to heal it, till such time its just a blind game. Our contracts hold the key to our destiny or fate.

HEAL YOUR PAST- RECREATE YOUR FUTURE

Present is simply a happening of the past and future is combination of the past and this present. Once you offer the correct response to this unchangeable past, we can not just heal our past but also recreate our future.

APPEASE YOUR ANCESTORS

For people who have done everything and feel they still are stuckup, be informed this is the domain you need to work on majorly. And it does not happen in a whatsapp group, ancestors need to be appeased and this powerful ritual, sets it up.

LIFE LESSONS

We all come with 12 life lessons and sometimes our biggest issues might be connected to maybe just that one lesson which we are not yet learning. Exploring and knowing more of this opens up hidden closed pathways.
